

A detailed cross-sectional view of a mechanical assembly. The assembly is housed within a main body (25) which has a central bore (24). A central shaft (45) passes through the bore. At the top of the shaft, there is a component (21) with a central part (23) and a flange (27). A cross-shaped component (33) is mounted on the shaft, with a part (31) extending to the right. A component (35) is shown on the right side of the assembly. Below the cross-shaped component, there is a component (37) labeled (P2). At the bottom of the shaft, there is a component (43) and a component (41) at the very bottom. The assembly is supported by a base (10) and a lower section (11 (P1)).
